Prototyping	Accessibility design
Wireframing	Responsive design
User research	Workshop facilitation
Usability testing	Presentation
A/B testing	Design critique
Interaction design	Brand application
Visual design	Collaborative design
Design systems	Discovery research
Figma Autolayout	Figma Libraries

## Awards

### First in course award

The University of Auckland | 2021

Design 222 - Business tools for designers

### First in course award

The University of Auckland | 2020

Design 232 - Smart homes and cities

## Experience

### Junior UX/UI Designer

The University of Auckland | May 2025 - Present

- Contributed to a wide range of UX/UI projects across enterprise search, brand refresh, and student-facing interfaces
- Led key design efforts for the University of Auckland's brand refresh, coordinating designers and running a collaborative workshop to apply new visual guidelines
- Worked closely with developers to ensure designs were implemented accurately and met accessibility standards
- Created interactive prototypes and design documentation to streamline handoff to developers and support cross-functional collaboration

### Design Graduate

The University of Auckland | Feb 2024 - May 2025

- Designed and prototyped for internal platforms such as UOA call centre Wallboard, including research, user interviews, and iterative testing
- Conducted A/B usability testing with students to evaluate new homepage designs, synthesised insights to inform design decisions
- Explored and evaluated conversational AI tools to support future chatbot integration, contributing to early discovery work.
- Supported design system consistency by aligning components with refreshed brand elements and accessibility best practices

### Junior Designer

Adeption | Feb 2023 - Nov 2023

- Designed new UI features and enhancements for Adeption's admin panel, translating complex workflows into clean, user-friendly interfaces
- Created high-fidelity prototypes aligned with Adeption's design system, ensuring consistency across client-facing and internal tools
- Developed engaging, interactive components that supported coaching experiences and learning journeys
- Took ownership of visual design assets across the platform, helping to elevate Adeption's overall brand presence and user experience
